

Stop running your golf fundraiser from *five different spreadsheets*.

One platform handles sponsors, golfers, finances, and event day — so your team can focus on raising money, not chasing emails.

THE CURRENT REALITY

Sound familiar?

You run one golf fundraiser a year. It raises serious money for your cause — but the weeks leading up to it are controlled chaos, and so is the day itself.

 Sponsor commitments, ad uploads, and golfer registrations scattered across spreadsheets, Google Forms, check images, and Venmo screenshots — nobody quite knows who's actually paid.

 Chasing booklet ads and yard-sign artwork one painfully polite email at a time — for weeks.

 Event morning: a clipboard, a printed list, a prayer — and volunteers who aren't sure what they're supposed to do.

 “Are we making money? Is this worth our time?” — no real answer until weeks after, when you're reconciling bank statements against envelopes of cash and sponsor checks.

 No system to renew last year's sponsors — board members rotate off and take their relationships with them. Industry data shows 45-55% of nonprofit sponsors don't come back. Yours probably would, if someone asked.

 Volunteer burnout. The same three people carry everything and they're exhausted before the first tee shot.

THE GOLFFUND DIFFERENCE

Everything except the golf — in one place.

GolfFund is purpose-built for organizations like yours: one event a year, all-volunteer team, big financial stakes. It's not a tee-sheet system — your golf course still runs the tournament, pairings, and scoring. GolfFund handles everything else: sponsors, golfers, money, and event-day operations.

Setup in 60 seconds

Create your event, share your public links, and sponsors and golfers start signing up the same day. No configuration maze.

One source of truth

Every sponsor payment, golfer registration, and member contribution flows into the same P&L — automatically, in real time.

Built for volunteers

Your team knows exactly what needs doing this week — no guessing, no missed deadlines, no “did we hear back from Acme yet?”

Gets better every year

Sponsor and member records carry forward automatically. Year two starts with one click, not a blank slate.

YEAR 2 SETUP

12 min

Tiers + families cloned

Everything your committee needs.

Sponsor portal + ad uploads

Sponsors pick their tier, commit, and upload booklet + yard-sign artwork themselves through their own magic-link portal. No more chasing.

Live P&L + per-golfer projections

Know whether you'll hit goal before event day. Fixed-cost projections, revenue rollups, always current.

Automatic donor receipts

IRS-compliant, 501(c)(3)-ready receipts with proper quid-pro-quo math. Sent automatically.

Member contribution tracking

Configurable minimums, real-time progress per member, and a one-click reminder to anyone who's short.

Event-day clarity

Mobile check-in, drag-and-drop flights, mulligan sales, real-time data for your whole team from the parking lot to the clubhouse.

Year-to-year directory

Sponsor and member records carry forward. Stop rebuilding your contact list from scratch every spring.

PRICING

Simple, honest pricing.

45 DAYS FREE

PRO

\$299

ENTERPRISE

\$1,499

per year · everything in Pro, your brand on it

- ✓ Everything in Pro
- ✓ Your logo + colors throughout the portal
- ✓ Your brand name in donor receipts & emails
- ✓ Priority support — direct line to the team
- ✓ Onboarding call to migrate sponsor history
- ✓ White-glove data import

One retained sponsor pays for it. And it makes the whole tournament easier to run.

Nonprofit donor retention runs **43–55%** year over year (Fundraising Effectiveness Project). Sponsors are often worse — because renewal is manual, artwork is missing, and the follow-up feels awkward. One retained \$500 sponsor more than pays for Pro. **45 days free. Money-back guarantee in year one.**

Not a tournament-management platform. Tools like Golf Genius (or whatever your course already uses) still run the golf side — pairings, scoring, leaderboards, GHIN. GolfFund handles the fundraising side: sponsors, member contributions, money, donor receipts, and event-day operations.

Run your next golf fundraiser from one dashboard.

Join organizations across the country who've traded the spreadsheet chaos for a system that actually works — and gets better every year.
